Memorial Resolution for H. Samuel Greenawalt

Sam Greenawalt, W’51, never hesitated as center of the offensive line on Penn’s football team, knowing full well that the start of each play depended on his snap of the ball. More than six decades later, when Penn Football named its spring game on April 11, 2015 in his honor, it was played in fond memory of a skilled and disciplined athlete whose love of sport and his alma mater never faltered. From his days as a gridiron warrior on Franklin Field, to his decades of service as a volunteer, H. Sam Greenawalt, W’51, embodied leadership and loyalty to the University of Pennsylvania.

Although Sam also lettered in squash, football was his real passion. He was a member of the celebrated “Munger Men” who played under legendary football coach George A. Munger during Penn Football’s 16-year winning streak. Years later, in tribute to his collegiate athletic career, Sam was included in the NCAA’s 1976 Silver Anniversary Group, which recognized five distinguished former student-athletes on the 25th anniversary of their participation in college athletics. Nearly six decades after his Penn graduation, the former All-American center served as a guest coach for Penn’s football team in the fall of 2008, and shared with the players his memories of playing on the University’s nationally-ranked football team before sell-out crowds at Franklin Field.

After graduating from Penn, the Sigma Chi member and Wharton finance major applied his considerable skills to building a distinguished career in banking. Sam served as an executive with Standard Federal Bank, a senior vice president of Michigan National Bank, and vice president of LaSalle Bank. He was also a director of Valley Commerce Bank and the throttle manufacturer Williams Controls. After active service in United States Marine Corps, Sam retired from its reserve unit after 22 years of service.

When Sam was named an Alumni Award of Merit recipient in 1987, the well-deserved honor reflected his years of participation on the Board of Trustees from 1979 to 1986 and as a member of the Investment Board from 1979 to 1995. He was a long-standing member and the first chair of the Athletics Advisory Board (later named the Athletics Board of Overseers). Not only an active volunteer, Sam consistently encouraged other alumni to connect with the Penn family through his service on the Class of 1951’s reunion and gift committees, as a Penn Fund volunteer, an alumni leader at the Wharton School, and as a member of the Penn Alumni Council and the Midwest Regional Alumni Club. His own family included a host of Penn graduates, including his late sister-in-law Mary Ann, CW’62, (also a former Trustee) his brother Jon, C’61, G’63 and nephew Jon, C’91 and niece Cynthia, W’87.

RESOLVED, that the Trustees of the University of Pennsylvania convey their sorrow at the passing of their colleague and long-time friend, Sam Greenawalt, whose leadership and devotion to Penn strengthened the very fabric of the University, and share their deep affection and appreciation with his family and friends, especially his wife, Diane, and children Sheri, Tami, and H. Samuel.
Memorial Resolution for Shaun F. O’Malley

For Shaun F. O’Malley, W’59, his twin loves of accounting and classical music shared something fundamental: their reliance on a rigid structure of rules that required a true maestro to master. As an internationally-respected accounting expert, Shaun shared his financial expertise with virtuosic aplomb as a member of the Penn Trustees’ Audit & Compliance and Budget & Finance committees. And he remained engaged with music as a decades-long board member and president of the Curtis Institute of Music, and as a subscriber to the Philadelphia Orchestra.

Shaun’s wide-ranging interests were apparent when he arrived at Penn in 1952—a college career soon interrupted for military duty that included service with the Seventh Army Occupation Force in Germany. When he returned to campus in 1955, he joined the varsity rowing team, intramural basketball and softball programs, Interfraternity Council, Law Review, Newman Club, Penn Players, West Philadelphia Tutoring Program, and Zeta Psi Fraternity.

Shaun’s Wharton education and the skills he honed through extracurricular activities were excellent preparation for a career at Price Waterhouse (now PwC). Starting as a staff accountant in the Philadelphia office, Shaun also worked in the Tokyo and Osaka offices, the National Office Research Department supporting the firm's member on the Accounting Principles Board, and as partner-in-charge of the Philadelphia office, before moving into the upper tiers of management. In 1984, he was elected to the firm’s U.S. governing board, and was later elected chairman and senior partner of its U.S. operations. In 1990, he was appointed co-CEO of the worldwide organization and was named chairman in 1992, a position he held until his retirement in 1995.

Later in his career, Shaun returned to Penn as a volunteer, bringing the accumulated wisdom of decades in the business world. He served on the Board of Trustees from 2001-2005, and on the Wharton Board of Overseers from 1991-2005. At Wharton, he was also a member of the Dean’s Council and Undergraduate Executive Board, a director of the SEI Center for the Study of Management, an officer of the Class of 1959, and a guest speaker. He established the Shaun F. O’Malley Endowed Scholarship Fund and was instrumental in creating the Price Waterhouse Professorship for Accounting. Shaun was also one of the founding members of Penn Medicine’s Board and Executive Committee and served as the first chair of its Audit Committee.

In addition to serving on numerous corporate boards, Shaun was active in civic affairs, both in Philadelphia and New York. He also served on the boards of Chestnut Hill College, the Regional Planning Committee of the Greater Philadelphia First Corporation, the Committee of Seventy, and the World Affairs Council of Philadelphia as well as the boards of the Mayor’s Private Sector Survey, the New York City International Business Initiative, and the New York City Alliance for International Business.

RESOLVED, that the Trustees of the University of Pennsylvania convey their sorrow at the passing of their colleague and long-time friend, Shaun F. O’Malley, whose devotion to Penn and to the Philadelphia region has left a lasting legacy, and share their deep admiration and appreciation with his family and friends, especially his wife, Lyn, and their children Brendan, WG’03, Sibyl, Aine and Megan.

Trustees emeriti shall enjoy all the rights and privileges of other trustees with the exceptions set forth in section 2.9, section 4.5, section 5.2, and section 6.2. At the age of eighty (80) or at any time before, emeritus trustees may choose to maintain emeritus status or step down from the board, acquiring the honorific title of "honorary trustee."

(g) Special Trustees: up to two in number, to serve for a term determined by the Chair and approved by the Trustees Executive Committee, as defined at the time of their election, and whose service is in the best interests of the University to meet a particular need or purpose.

2.6 Charter trustees shall retire at the conclusion of the first stated meeting of the Trustees following the date on which they reach seventy years of age or at the conclusion of their 10 years of service, whichever comes first. Term, alumni, and Commonwealth trustees shall retire at the conclusion of the first stated meeting of the Trustees following the date on which they reach seventy years of age.

After the member has been off the board for at least one year, the member may be reappointed for another three-year term which may be renewed for two additional three-year terms. There shall be no limit placed on the number of total years of service that a member may dedicate to any one overseer or advisory board.

Resolution to Establish a Master of Science in Design in the School of Design

Intention:

The School of Design proposes to establish a Master of Science in Design, offering advanced professional training to post-graduate students who hold a first professional degree in an accredited design program or an equivalent degree in a related field. Such students will likely have several years of work experience and will be seeking to advance their professional skills and expertise, especially in new technologies and collaborative work across disciplines.

The new degree will encompass a range of subject areas to address the changing needs of design professionals, with a particular focus on innovative, emerging, and interdisciplinary fields of research and practice. The first such program will be Advanced Architectural Design, building on the School’s current program in Post-Professional Design. This existing program in the School’s prestigious Department of Architecture has tripled in size over the past decade and emphasizes design innovation. It now culminates in an M.Arch degree, which the National Architecture Accreditation Board recently redefined as a first professional degree rather than an advanced one. The School would therefore transition this established program to build the new Master of Science in Design and provide a successful model for additional programs in the coming years.

Such future programs in the Master of Science in Design will aim to advance the School’s global reputation for innovative research and coursework, encompassing such key emerging areas as computational design, interactive design, robotics, and digital technologies. In so doing, the new degree will reaffirm the School’s strong commitment to meeting the rapidly changing needs of design professionals, focusing on the kind of collaborative, interdisciplinary knowledge that is a hallmark of a Penn education. It will also allow the School to build programs that are responsive to changing economic, social, and political forces, especially those of globalization and urbanization that have particular relevance to architecture and other design professions.

The new degree program has been approved by the Dean and Standing Faculty of the School of Design, the University’s Academic Planning and Budget Committee, and the Provost.

RESOLVED, that there shall be established in the School of Design a Master of Science in Design as defined in this resolution.
Resolution to Authorize the Spending Rule for Endowments

Intention:

The Board of Trustees (“Board”) elected in fiscal year 1981 to be governed by Section 5548 of Title 15 of the Pennsylvania Consolidated Statutes. Pursuant to the Statute, the Board adopted a Spending Rule for the Associated Investments Fund, and has revised the Spending Rule from time to time. The current Spending Rule policy bases 70% of spending on prior year spendable income plus an inflation factor, and 30% of spending on the endowment market value, lagged by one year, multiplied by a target spending rate of 6.5% for financial aid endowments and 4.7% for non-aid endowments. Consistent with prior Board deliberations, the target spending rate on financial aid endowments will be lowered to 5.9% for Fiscal Year 2016.

Consistent with the reporting requirements of the Pennsylvania Consolidated Statutes, the effective payout rates for Fiscal Year 2015, calculated on the basis of a three year moving average value of the June 30 endowment market value, lagged one year, are 6.5% for financial aid endowments and 4.8% for non-aid endowments. The effective rates for Fiscal Year 2016 will be 6.4% for financial aid endowments and 4.8% for non-aid endowments.

RESOLVED, that based on the Spending Rule formula, the effective payout rates for Fiscal Year 2016, calculated using a three-year average of market values lagged one year, will be 6.4% for financial aid endowments and 4.8% for non-aid endowments.

Resolution to Declare University’s Intent to Reimburse Capital Costs with Proceeds of Borrowings

Intention:
The Trustees of the University of Pennsylvania (University) are undertaking various capital projects described in Exhibit A (Project). The Administration of the University recommends that the Trustees declare the University’s intent to reimburse expenditures for the Project with proceeds of borrowings, including tax-exempt debt obligations. Background on this resolution is provided in Exhibit B.

RESOLVED, that the University hereby declares its intent under Treasury Regulation § 1.150-2 to use borrowings, including tax-exempt bonds, to finance the capital costs of the Project, together with costs of issuance and reasonably required reserves, subject to the following conditions:

1. The maximum principal amount of tax-exempt bonds expected to be issued to finance the Project is $200 million.

2. Pending issuance of the tax-exempt bonds, the University may finance the Project with other funds which will be reimbursed with the proceeds of the tax-exempt bonds.

3. Issuance of the tax-exempt bonds shall be subject to documentation acceptable to the University providing for the tax-exempt bonds to be payable from the payments by the University.
EXHIBIT A

Description of Capital Costs

The Project consists primarily of construction, renovation, improvements and equipment acquisitions at the University’s facilities in the Commonwealth of Pennsylvania - including the campus of the University in the City of Philadelphia, the boundaries of which are 41st Street on the West, 31st Street on the East, Chestnut Street on the North and Civic Center Boulevard on the South. The Project facilities will be used by the University in its activities as an independent not-for-profit institution of higher learning.

The Project is reasonably expected to include the following specific facilities together with other projects included in the Fiscal Year 2016 Capital Plan:

Chilled Water Expansion
Dormitory Renovations
Neural-Behavioral Sciences Building
Stemmler Hall Renovations
The University’s lowest cost and most favorable source of capital is tax-exempt financing. The IRS has promulgated specific rules and procedures to enable eligible capital projects to secure tax-exempt financing. One of the basic principles of tax-exempt financing is that the proceeds must be traced to the acquisition of specifically identified assets. The IRS further requires that if an issuer wishes to use its own funds on an interim basis for expenditures prior to a tax-exempt borrowing, the governing board of such issuer must declare its intent to borrow at the time of the expenditure. The benefit of declaring intent to borrow is that, should the University secure external financing for any capital project, the University could reimburse itself for these expenditures and use the proceeds immediately upon their delivery. The reimbursement resolution does not commit or authorize any borrowing by the University. If the University moves forward with long-term borrowing plans, the Budget and Finance Committee and Trustees of the University would need to approve such plans.

The financial management of the University recommends that this reimbursement resolution be adopted and a similar resolution be adopted each June when the capital plan is presented to the Budget & Finance Committee of the Trustees.
Resolution to Declare University of Pennsylvania Health System’s Intent to Reimburse Capital Costs with Proceeds of Borrowings

The Administration recommends that the Trustees declare UPHS intent to reimburse expenditures for the capital costs with proceeds of borrowings, including tax-exempt debt obligations. Background on this resolution is provided in Exhibit B.

RESOLVED, that the University hereby declares its intent under Treasury Regulation § 1.150-2 to use borrowings, including tax-exempt bonds, to finance the capital costs, together with costs of issuance and reasonably required reserves, subject to the following conditions:

1. The maximum principal amount of tax-exempt bonds expected to be issued to finance the capital costs is $200 million.

2. Pending issuance of the tax-exempt bonds, UPHS may finance the capital costs with other funds which will be reimbursed with the proceeds of the tax-exempt bonds.

3. Issuance of the tax-exempt bonds shall be subject to documentation acceptable to the University providing for the tax-exempt bonds to be payable from the payments by UPHS.
EXHIBIT A

Description of Capital Costs

The capital costs consist primarily of construction, renovation, improvements and equipment acquisitions at UPHS facilities in the Commonwealth of Pennsylvania during fiscal years 2016 through 2020 as set forth in the UPHS capital budgets for these years.

The capital costs are reasonably expected to include the following specific facilities together with other projects included in the Fiscal Year 2016 Capital Budget:

- Penn Tower Demolition and HUP Bed Tower Planning
- Pennsylvania Hall Renovation
- Penn-Novartis Center Advanced Cellular Therapeutics
- Practice of the Future – Penn Medicine Cherry Hill, NJ
- Chester County Hospital Master Facility Planning
The lowest cost and most favorable source of capital for UPHS is tax-exempt financing. The IRS has promulgated specific rules and procedures to enable eligible capital projects to secure tax-exempt financing. One of the basic principles of tax-exempt financing is that the proceeds must be traced to the acquisition of specifically identified assets. The IRS further requires that if an issuer wishes to make expenditures prior to a tax-exempt borrowing, the governing board of such issuer declare its intent to borrow at the time of the expenditure. The benefit of declaring intent to borrow is that, should UPHS secure external financing for any capital project, UPHS could reimburse itself for these expenditures and use the proceeds immediately upon their delivery. The reimbursement resolution does not commit or authorize any borrowing by UPHS. If UPHS moves forward with long-term borrowing plans, the Penn Medicine Executive Committee, the Budget and Finance Committee and the Trustees of the University would need to approve such plans.

The financial management of UPHS recommends that this reimbursement resolution be adopted and a similar resolution be adopted each June when the capital plan is presented to the Penn Medicine Executive Committee.

Resolution Approving the Strategic Transaction
Related to Tcera, Inc. and Investment into Tcera, Inc.

Intention:

The Center for Cellular Immunotherapies (CCI) at Penn Medicine, led by Dr. Carl June (the June Team), has been working for the past decade to develop therapies which enhance a patient’s immune system to treat their underlying disease. One significant advancement in the field, spearheaded by the June Team, led to a groundbreaking research and development alliance with Novartis in 2012 to advance the use of chimeric antigen receptor (CAR) modified T-cell technology for oncology. Penn Medicine scientists believe that additional significant advances may be made by modifying regulatory T-cells (Tregs) to “speed up” or “put the brakes” on a patient’s immunological response and/or using customized recombinant T-cell receptor (TCR) modified T-cells to target specific disease causing tissues and pathogens, leading to the improved treatment of many intractable diseases. Certain intellectual property assets, expertise and know-how remain at the University of Pennsylvania (Penn) and Penn Medicine that have not been committed to third parties and will form the basis for a strong entrant into the field.

Penn Medicine Management is recommending that The Trustees of the University of Pennsylvania (The Trustees), on behalf of Penn Medicine, pursue a start-up company strategy to secure certain specific strategic objectives, advance groundbreaking science and produce a potential financial return. Establishing and supporting an independent biotechnology company, Tcera, Inc. (Tcera) is the preferred approach for the continued successful development and commercialization of new immunotherapy research discoveries emerging from the June Team (The Transaction). Tcera will be established via a seed-stage capital investment with co-investors to rapidly initiate operations, engage with the biopharmaceutical industry and shape a robust vision for its long-term strategic direction. The creation of Tcera brings together the world class science and research of pioneering Penn Medicine faculty and experts, and the industry and business expertise of a renowned, local life sciences investment company, as well as the broad resources of the Penn Center for Innovation, to create a new, vibrant organization based in Philadelphia. Tcera will leverage the intellectual property licensed initially from The Trustees and another institution, to treat a variety of serious and devastating disease conditions.

Tcera will seek investors for the initial seed round and The Trustees will invest capital funds in seed financing of Tcera along with co-investors, subject to and consistent with the terms of a stock purchase agreement and other related company formation, equity and financing documents acceptable to The Trustees and Tcera (Financing Agreements) and a license agreement. This financing is envisioned as a seed investment round to fund Tcera’s initial operations. The Trustees also have an option but not the obligation to make additional investments in subsequent financing rounds. The Trustees have explicitly stated its expectation that future financing rounds will be completed with co-investors. Penn Medicine expects that industry specific institutional investors may participate along with The Trustees in subsequent financing of Tcera. The subsequent co-investments will dilute The Trustees’ shares and lessen The Trustees’ control in Tcera. Research support is also contemplated as part of the Transaction. The Trustees will also enter into an agreement to license to Tcera certain intellectual property rights. Management has carefully reviewed the proposed business plan with its collaborator Novartis and received its approval to move forward; Penn Medicine will periodically update Novartis on Tcera’s progress. In addition, certain protective
features have been added to the license to ensure that The Trustees are able to honor any of their pre-existing obligations to other third party licensees, including Novartis.

Management has recommended to the Penn Medicine Finance and Executive Committees that they in turn recommend to The Trustees Budget and Finance Committee, the Transaction as contemplated by these resolutions and authorization of the investment of capital funds in the 2016 UPHS Capital Budget. The Penn Medicine Finance and Executive Committees further make such recommendations to The Trustees.

RESOLVED, that The Trustees approve the Transaction described in the foregoing Intention and as presented to the Penn Medicine Finance and Executive Committees and The Trustees, including the following actions:

- Approval of the proposed structure of the Transaction by which The Trustees will establish Tcera and authorize the investment of capital funds in equity financing, along with co-investors, in Tcera in the Fiscal Year 2016 Capital Budget.
- Enter into the Financing Agreements.
- Authorize participation in the governance of Tcera.
- Delegate to the Executive Vice President, University of Pennsylvania for the Health System/Dean Perelman School of Medicine (Dean), or his designee, the authority to take such action on behalf of The Trustees with respect to all matters to be voted upon by The Trustees in their capacity as a stockholder of Tcera.
- The filing of documents with, and taking of other actions with respect to any governmental or regulatory offices, if necessary or appropriate, in order to secure all approvals, consents, licenses, permits and the like necessary to consummate the Transaction.

RESOLVED, that The Trustees delegate authority to the Dean, or his designee, to take such action and approve and execute such documents on behalf of The Trustees as may be necessary to effectuate and implement the Transaction contemplated in the foregoing resolution substantially within the parameters described therein.

FURTHER RESOLVED, that the appropriate officers, members of Penn Medicine Executive Committee, The Trustees, Penn Medicine and Penn Medicine Management are authorized and empowered to take such actions as they may deem necessary, appropriate or desirable to effectuate the intent of the foregoing resolutions and that all actions heretofore taken by such officers in furtherance of the purposes of these resolutions are hereby ratified and affirmed.
